

Frequently Asked Questions (FAQ)

Do you ship to Post Office Boxes (PO Box)?

Unfortunately UPS does not deliver to PO boxes and so this service is not offered. The only time we ship via the post office is if the order originates outside the United States or is an APO. Therefore, please make sure you provide us with a physical shipping address during checkout. Your billing address can of course be a PO Box. If this is impossible, please contact us so that we can make it work.
